GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on non-riparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriative rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

IF NAME/ADDRESS/PHONE NO. IS WRONG OR MISSING, PLEASE CORRECT.

SOURCE: WHITEHEAD SLOUGH

TRIBUTARY TO: HONEY LAKE

COUNTY: LASSEN

DIVERSION

WITHIN: NW1/4 OF SW1/4 SECTION 31, T29N, R15E, MDB&M.

INSTRUCTIONS: Please complete Items A, B and C. Item D should be completed if you replaced all or part of your regular water supply with reclaimed or polluted water. RETURN THIS FORM BY JULY 1, 1991. (Additional information on reverse side of this form.)

A. Amount of Use - Fill in the amount of water used each month. If monthly and annual use are not known, check the months in which water was used.

Amounts ☐ Gallons
below are: ☐ Acre-feet
☒ 2.31 cubic feet (other)

	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total Annual
1988	X	X	X	X	X	X	X	X	X	X			
1989	X	X	X	X	X	X	X	X	X	X			
1990	X	X	X	X	X	X	X	X	X	X			

B. Purpose of Use - Specify number of acres irrigated, stock watered, persons served, etc.

Irrigation ~~400~~ 98 acres

Stockwatering 120 cows & calves

Domestic

Other (specify)

C. Changes in Method of Diversion - Describe any changes in your project since your previous statement was filed. (New pump, enlarged diversion dam, location of diversion, etc.)

There hasn't been any change
from the looks of things there won't be any
water this year too. As the past 3 years.

D. If part of the water listed in Part A consists of reclaimed or polluted water, please indicate the annual amounts of reclaimed or polluted water in the space below.

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

DATED: April 8, 1991, at Wendell, California

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the source of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

- "Statements of Water Diversion and Use"
- "Information Pertaining to Water Rights in California"
- "Water Rights for Stockponds Constructed Prior to 1969"
- "Appropriation of Water in California"

STATEMENT OF WATER DIVERSION AND USE

This statement should be typewritten or legibly written in ink.

S8131

A. Name of person diverting water Lola Tanner
Address Wendel, California
B. Name of body of water at point of diversion Whitehead slough
Tributary to Susan River
C. Place of diversion NW 1/4 SW 1/4 Section 31, Township 29N, Range 15E, MD B&M,
Lassen County, or locate it on sketch of section grid on reverse side with regard to section
lines or prominent local landmarks.

D. Name of works Whitehead dam
E. Capacity of diversion works 2 CFS cubic feet per second
Capacity of storage reservoir gallons per minute
 gallons
 acre-feet

State quantity of water used each month in gallons or acre-feet

Year	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total Annual
	:	2	2	2	2	2	2	2	2	2	2	:	

If monthly and annual use are not known, check months in which water was used. State extent of use in units, such as acres of each crop irrigated, average number of persons served, number of stock watered, etc.

Maximum annual water use in recent years 3 gallons
Minimum annual water use in recent years 1 acre-feet
Type of diversion facility: gravity X, pump

Method of measurement: weir , flume , electric power meter , water meter , estimate

F. Purpose of use (what water is being used for) growing hay, pasture and
watering livestock (cattle)

G. General description or location of place of use (use sketch of section grid on reverse side, if you desire)

H. Year of first use as nearly as known prior 1914

I. Name of person filing statement Julian W. Mapes
Position tenant Organization Mapes Ranch Inc
Address Litchfield, California

I certify that the foregoing statements are true and correct to the best of my knowledge and belief.

Date signed 5-16-73 Signature Julian W. Mapes
